- Timing (practise more)
- When talking about diagram, don't need to go into details, just give a overall view
- Label all diagrams
- Don't physically cover the screen
- Don't switch position (just point to indicate), if you have to, the transition should be smoother
- Uniform format: consistent dressing
- Activity diagram should end with double circle
- Use-cases, what you say and what's on the slide should be consistent
